FOR MYSORE STATE

G.O. No. 1261

1261

Dated 8.4.54

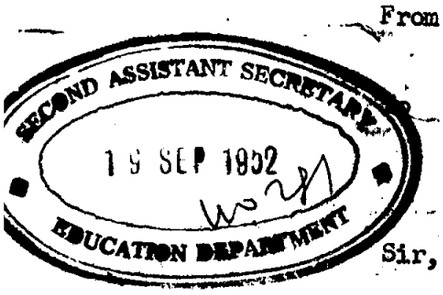
[Despatch Abstract.]

BUILDINGS - South Kanara District - Government Arts College, Mangalore Provision of new lavatories and latrines with modern Sanitary appliances Expenditure Rs 17,000/- Approved.

Education Departm

From

The Director of Public Instruction,
M a d r a s



The Secretary to the Government of Madras,
Education Department, Fort St.George, Madras.

R.O.C.No. 1320-K1/52 dated 16th September,1952.

Sir,

Buildings--Major works--1953-54--Government Art College,Mangalore--Proposals.

I submit for the consideration of Government th following proposals for the construction of additional bu required to meet the long-felt minimum needs of the Gover Arts College, Mangalore.

| | |
|---|---|
| (a) Extension of the present B.Com.block in the west to provide four Lecture halls, two in each of the ground and the first floors — Estimated cost .. .. | Rs. 45,0 |
| (b) New lavatories and latrines for staff and students with modern sanitary appliances - Estimated cost .. | Rs. 17,0 |
| (c) Construction of a science block - Estimated cost.. | Rs. 75,0 |
| T o t a l .. .. | Rs. 1,37,0 |

2. The need for each of the three schemes mentione is explained below:-

(a) Extension of the present B.Com.block.- The has reported as follows:-

"we have at present only three lecture halls wh could accommodate about 120 students and where we could c Part I, Part II and Part III(History) classes conveniently account of the increased strength in all the classes, we bigger lecture halls with adequate space."

The sanctioned strength of each of the three ju classes in the college is 264 in the Intermediate, 115 in and 50 in the B.Com. The senior classes also have as much strength as the respective junior classes. For want of ad lecture halls, some of the classes are now held in the mo between 9 and 10. As English, Language and History classe require the use of big lecture halls, I agree with the Pr that four more lecture halls are absolutely necessary and with his proposal to extend the B.Com.block in two floors provide two lecture halls in each of the two floors.

(b) New lavatories and latrines.- The existing provi and its inadequacy are clearly brought out in the Princip remarks given below:-

"This college has a strength of nearly 750 students, 54 members of staff and several non-teaching staff. They have no adequate lavatory arrangements. There is no lavatory or urinal for the members of staff. A small old G.I. sheet put up some years ago is used by the staff as a urinal. We have at present only one open type dry earth lavatory having 15 seats, a septic tank lavatory with but one seat for girls numbering 90 in the college. There is absolute necessity for providing adequate lavatory arrangements for students, members of staff and also for Gazetted staff of this college. The local Municipality and the Health Department have already brought to notice the inadequacy unsatisfactory lavatory arrangements made in this college."

The conditions reported by the Principal point to the urgent need for providing the college with adequate sanitary conveniences.

(c) Science Block.- The construction of a science block is a pre-requisite for affiliating the college in a science(main) subject in the degree course. The College is at present affiliated in the following groups in the B.A.degree course:-

(1) Mathematics - Group (i) (a)

(2) Mathematics - Group (i) (b)

(3) Mathematics with Physics subsidiary. - Group (ii)(a)

(4) Economics - with History subsidiary. - Group (iv)(b)

The absence of a full science course in the degree classes detracts from the usefulness of the college. The students of Group I have no alternative except Mathematics(main) while those of Group II, if they are obliged to continue their studies in the college itself, must necessarily take Group (iv)(b). The Natural Science Group in the Intermediate has a strength of 88 and it is only rational and desirable that there should be at least one full science course in B.A. Physics and Chemistry with one as main and the other as subsidiary, for the benefit of the students of this group as well as those of Group I.

The St.Aloysius College,Mangalore has B.Sc. courses in Physics and Chemistry(main) with Mathematics, Physics ~~and~~ or Chemistry as subsidiary. The provision in this college is not adequate to meet also the needs of the students passing out of the local Government Arts College.

As the provision of a full science in the B.A.class in the Government Arts College,Mangalore has been pending for a long time and is necessary in the interests of the students of not only this college but also of the second grade colleges at Udipi and Mercara, it is absolutely essential to construct a new building so that the science course may be opened at least from 1954-55. The scheme for the construction of a science block was last deferred by Government in their Memorandum No.37117-G/51-2-Edn., dated 9-7-1952.

3. Out of the six buildings schemes proposed by the Principal, I have selected the above three as the most urgent. I request that in the circumstances explained, Government may kindly approve the proposals and provide the necessary funds in Part-II of the Budget Estimate for 1953-54.

Yours faithfully,

For Director of Public Instruction.

Education Dept.(G)

## Part II Scheme for 1953-54.

Sub:- Buildings - Govt. Arts College, Mangalore - Provision of new lavatories and latrines with modern sanitary appliances.

---

SUMMARY of cost

| Item of expenditure. | Ultimate cost. (Non-recurring). Rs. | Cost in 1953-54. (Non-recurring) Rs. |
|---|---|---|
| (2) Provision of new lavatories and latrines in the Govt. Arts College, Mangalore. | ~~Nil.~~ 17,000 | 17,000 |
| Total. | 17,000 | 17,000 |

### Explanatory Note.

In connection with the Part II Schemes for 1953-54 the D.P.I. ~~has~~ has proposed, inter alia, the provision of new lavatories ~~at an estimated cost of Rs 17,000/-~~ and latrines with modern sanitary appliances for the Govt Arts College, Mangalore at an estimated cost of Rs 17,000/-. The following remarks of the Principal point to the urgent need for ~~providing the College with adequate sanitary conveniences:-~~ the work:-

" This College has a strength of nearly 750 students, 54 members of staff and several non-teaching staff. They have no adequate lavatory arrangements. There is no lavatory or urinal for the members of staff. A small old G.I. sheet put up some years ago is used by the staff as a urinal. We have at present only one open type dry earth lavatory having 15 seats, a septic tank lavatory with but one seat for girls numbering 90 in the college. There is absolute necessity for providing adequate lavatory arrangements for students, members of staff and also for Gazetted staff of this college. The local Municipality and the Health Department have already brought to notice the inadequacy and unsatisfactory lavatory arrangements made in this college. "

In the circumstances, this Dept. recommend that necessary provision be made in the B.E. for the year 1953-54, as indicated in the summary above.

Sub:- Major works - 1953-54 - Govt. Arts College, Mangalore - Proposals for Part II Scheme.

---

Ref:- From the D.P.I., ROC. No.1320-K1/52 dated 16-9-52.

---

In connection with the Part II Schemes for 1949-50 the D.P.I. submitted proposals for the construction of additional buildings for the Govt. College, Mangalore. The proposals were deferred on financial grounds and it was ordered that they might be taken up again when the public of Mangalore came forward with contributions towards the cost of constructing the additional buildings promised by them before the former Minister for Education.

In connection with the Part II Schemes for 50-51 the Director submitted proposals for opening new courses of study and for construction of necessary buildings for them in the College. The Govt. sanctioned the opening of Group II Mathematics with Physics subsidiary under Part III of the B.A. Course from 1950-51. The rest of the proposals were deferred.

The Director renewed the proposal for construction of a new block in the College at an estimated cost of Rs.50,000/- for consideration as a Part II Scheme for 1951-52, with a view to the introduction of new courses of study, viz. Physics and Chemistry as main, under Part III of the B.A. Course from the academic year 1952-53. The proposal was again deferred.

In renewing the proposal for consideration as Part II Scheme for 1952-53, the D.P.I. suggested the waiver of the conditions regarding the payment of contribution by the public towards the construction of additional buildings, in view of the urgent demand for the introduction of Physics (Main) and Chemistry(Main) under Part III of the B.A. in the College. The proposal was, however, deferred. Hence not approved as it was not recommended by the SFC.

In connection with the Part II Scheme for 1953-54 the D.P.I. has proposed the construction of the followi

additional buildings:-

| | |
|---|---|
| (a) Extension of the present B.Com. block in the west, to prov 4 Lecture halls, two in each of the ground and the first floors - Estimated cost. | 45,000/- |
| (b) Provision of New lavatories and latrines for staff and students with modern sanitary appliances - Estimated cost.. | 17,000/- |
| (c) Construction of a Science block. - Estimated cost. | 75,000/- |
| Total. | 1,37,000/- |

He has explained the need for each of the above three building schemes.

The proposal for the extension of the present B.Com. block may be deferred, as it does not appear to satisfy the test of immediate and imperative necessity. The other two proposals for the provision of lavatories and construction of Science Block may be supported in this Dept. as they are considered to be absolutely essential.

P.W ~ Finance may see for remarks before circulation.

ADDITIONAL DEPUTY SECRETARY TO GOVERNMENT 81083 3-NOV 1952 B.E III FINANCE DEPARTMENT

---

Construction of additional buildings for the Government Arts College, Mangalore.

Cost: Rs.17,000/-.

---

The D.P.I. has proposed the construction of th following additional buildings for the Government Arts College, Mangalore:-

| | Estimated Cost. Rs. |
|---|---|
| (1) Extension of the present B.Com; block. | 45,000 |
| (2) Provision of new lavatories and latrines for staff and students with modern sanitary appliances. | 17,000 |
| (3) Construction of a Science block. | 75,000 |

Education have, however, proposed that the provision for lavatories (Rs.17,000/-) alone may be included for consideration as a Part II Scheme for 1953-54, and that the other two proposals may be deferred. P.W. agree with Education.

2. It may be necessary to provide the College with adequate sanitary conveniences, but the point is whether the provision of these facilities is immediate and imperatively essential for the running of the administration. It does not appear to be so. The staff and students of the College have been getting on without these conveniences so long, and they have t put up with such inconveniences for some more time. Further, as a general rule, this Department has been advising against all proposals for the provision of sanitary installations even in residential quarters of Government servants.

In the circumstances, Finance may advise against the proposal of Education, and suggest that it may be deferred.

SECOND ASSISTANT SECRETARY 22 NOV1952 EDUCATION DEPARTMENT

19.11.52

This may take its chance as a Part II measure

The file relates to the following proposals of the D.P.I. for the Govt. Arts College, Mangalore:

(1) Extension of the present B. Com. block at an estimated Cost of Rs 45,000/.

(2) Provision of new lavatories and latrines for staff and Students with modern Sanitary appliances at a Cost of Rs 17,000/

(3) Construction of a Science block at a cost of Rs 45,000/.

This Department suggested that the Dir's proposal (2) for provision of lavatories and latrines may be included for consideration as a Part (II) Scheme for 53-54 while the other two proposals may be deferred. P.W.D and Finance have agreed with this Dept.

The file may now be Circulated ~~for orders whether~~ to M(Edu), M(Edu), M.(P.W) and M(Fin) for orders whether the proposal for the provision of new lavatories and latrines of the Govt Arts College, Mangalore for the staff and Students with modern Sanitary appliances at an estimated Cost of Rs 17,000/ may go forward as a Part (II) Scheme for 53-54, as suggested by this Dept. and agreed to by P.W.D and Finance Depts.

Part II Scheme for 1954-55

Buildings- Govt Arts College, Mangalore.

From the D.P.I.No 1320-kl/52 dated16-9-52.

In connection with the Part II Schemes for 1953-54 the D.P.I. proposed the construction of the following additional buildings for the Govt Arts College, Ma

| | Rs. |
|---|---|
| (a) Extension of the present B.Com. block in the west, to provide 4 Lecture halls, two in each of the ground and the first floors - Estimated cost. | 45,000/- |
| (b) Provision of New lavatories and latrines for staff and students with modern sanitary appliances- Estimated cost. | 17,000/- |
| (c) Construction of a Science block. - Estimated cost. | 75,000/- |
| Total. | 1,37,000/- |

He explained the need for each of the abov three building schemes, in his letter on pp.1-2 c

This Department supported the proposal for the provision lavatories alone, at an estimated cost of Rs.17,000, and suggested that the other two proposals might be deferred. P.W.D. and Finance agreed with the proposal of this Department. After obtaining the orders in circulation, the matter was placed before the Standing Finance Committee for its consideration as a Part II Scheme for 1953-54. The Standing Finance Committee did not recommend the Scheme. It was therefore decided in circulation that the proprosal might be brought forward in July, 1953 fo consideration in connection with the preparation of final budget for 1953-54. For the preparatio of the Budget Estimate for the second six months of the current year Finance Department issued

(P.T.O.)

instructions to the effect that no new schemes should be provided for in the estimates and that the question of introducing new schemes in the current ye should be considered by the new Government concern after Partition. The proposal was therefore ordered to lie over.

The proposal for the provision of lavatories in the Govt. Arts College, Mangalore will have to be considered now., ~~There appears to be no need to treat this proposal as a new scheme in the current year as the facilities are not imperatively essential for the running of the administration~~. The proposal may ~~therefore~~ be considered as a Part II Scheme for 1954-55. The need for the Scheme is explained in the letter of the Director at 'A' p. 2 c.f.

In the circumstances stated, this Department may suggested that the provision for lavatories and latrines, with modern sanitory appliances, in the Govt. Arts College, Mangalore at an estimated cost of Rs.17,000/- may be considered as a Part II Scheme for 1954-55, as originally proposed by this Dept. and agreed to by P.W. and Finance for the last year.

P.W. and Finance may see.

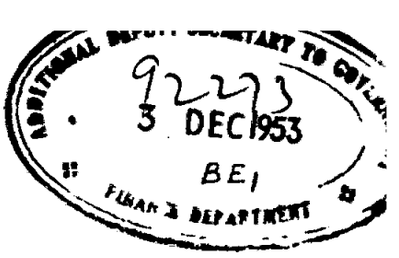
P.W.D / Fin.

Note from p.1 ante may be perused. It may be mentioned in this connection that on account of hig cost of labour and material and the prevailing fina cial stringency, building schemes which are absolut essential and which are inescapable alone are taken up for consideration. Recently Govt. did not approve the proposal of the C.E. for the provision of sanitary installations to the quarters of E.E. & S.D.O. Coimbatore and that of the S.E. Tiruchi Circ More recently the Govt. did not approve the general proposal of the Collector of Tirunelveli for the revision of Govt.'s present policy in regard to the provision of electric lights, fans and flush out latrines. The ~~present~~ not proposal recommended by ~~is not only for construction of additional buildings for the Govt. Arts College, Mangalore but also~~ H E & L.A. Dept. for the provision of ~~Modern Sanitary Appliances~~ installations for the staff and students at a cost of Rs.17,000/-.

2. IN.G.O.No.1340 Finance dated 12-10-53 Finance have laid down certain criteria for consideration o Part II Schemes. One of them is that "Schemes involving non-development expenditure should be avoided as far as possible except where such scheme are considered essential to prevent a break-down of the administrative machinery". The present propos does not appear to satisfy the above criteria. In view of the reasons set out above this departmen may suggest that the present proposal may perhaps be deferred to better times.

3. With these remarks the case may be passed on



P.W.D.

Fin (B.E I) Dept.

art II Scheme for 1954-55

OVISION of new lavatories and latrines with
dern Sanitary appliances for the Government
Arts College, ~~Madras~~ Mangalore. cost: Rs. 17,000

The notes of H.E.L.A and the P.W.D on pages 10-12 above may be perused.

For the reasons given by the P.W.D at A and B on page 12 above, Fin. may agree with them that the proposal referred to above need not b considered as a Part II Scheme but for 1954-55 ~~and~~ that it may be deferred.

Note for circulation.

The proposal is for the provision of modern sanitary installations for staff and students of the Govt. Arts College, Mangalore, at a cost of Rs 17,000. The need for the work is explained at 'A' on p 2 of the file. Reasons support the proposal. For the reasons stated at 'A' and 'B' on p 12 ante, P.W.D suggest that the proposal may be deferred to better times. To agree with P.W.D. The file may be circulated to M (F & E) and M (W)

for orders whether the proposal may be deferred or whether it may go up for consideration as a Part II Scheme for 1954-55.

The cases referred to at A on page 12 ante are not similar to the present proposal. The former relate to quarters for the benefit of a few persons while the latter is intended for the convenience of hundreds of students. This dept may press the proposal. The G.E may be asked to reduce the cost as much as possible.

I agree

Sanction may be accepted.
